Endorsement of the European Charter for Researchers and Code of Conduct for the Recruitment of Researchers (Charter and Code)

Dokuz Eylul University (DEU) welcomes and supports the initiative of the European Commission to ensure a supportive research environment for researchers on mobility. Having endorsed the 40 principles of Charter and Code, we notify you about our commitment to implement these principles in our university via the Human Resources Strategy for Researchers (HRS4R).

DEU is one of the leading research universities at the national level, with an increasing international outreach. Our university is already member of EURAXESS and several of the general principles proposed in the Charter and Code are already common practice at DEU. We, therefore, welcome the opportunity of internal analysis in the framework of the HRS4R and aim at embedding this process in the wide array of current activities in our university's human resources policy. By implementing the Charter and Code principles DEU aims at attracting the most outstanding researchers within the European Research Area and beyond.

Best regards,

Prof. Dr. Fatma Duygu ÖZEL DEMİRALP

Vice Rector
